TAPA COLOR FOR DETAILS

RED DELICIOUS GLR30 GLIDDEN

"Mmm... red! I'm glad it has moved beyond the dining room, because I adore the power and energy red brings to a space. As a child growing up in Okinawa, Japan, my favorite kimono—given to me by our Japanese gardener—was just this shade. It's oxblood, which has such depth. Paired with any blue, from cerulean to midnight, it's classic."

DEEP SAXE BLUE BS113 FINE PAINTS OF EUROPE

"You'll see this shade of Prussian blue in butterfly, Orientalist paintings, or Turkish robes, and the way we used it in this dining room—with canary yellow and coral—feels very exotic. The lacquer finish changes the color and gives it body and depth. It glistens. The atmosphere is luxurious and rich, like a sultan's palace."

HABANERO PEPPER 1306 BENJAMIN MOORE

"One of my favorite things to do when I travel is to visit the local food markets, and this particular shade of red reminds me of the dried chili peppers that hang in such abundance in the outdoor stalls throughout India. Red is an energetic color that denotes power and passion. It adds a lot of impact to a room at minimal expense."
